

**How to Read the Chart**

# Color Reproduction Guide

The colors identified on this chart are represented by a 4-digit code.

The code is broken down into screen tint percentages of Cyan, Magenta, Yellow and Black values.

0=0%, 1=10%, 2=20%, 3=30%, 4=40%, 5=50%, 6=60%, 7=70%, 8=80%, 9=90% & A=100%.

When converting Pantone colors to CMYK, round the CMYK percentage for each color to the nearest 10%.

7700	3400	5400	7300	A400
A100	8020	8030	8050	8080
6080	4080	2080	3040	A0A5
01A0	02A0	03A0	04A0	06A0
15A0	1660	1880	0774	3AA0
1AA0	0770	0640	0440	0A50
0A10	1A00	1830	3800	5A00

**Screen Tints**

Color screen tints should be within the color range of 30-100%.

Black screen tints should be between 10-100%.

A000	0A00	00A0	A0A0	0AA0	AA00
8000	0800	0080	8080	0880	8800
7000	0700	0070	7070	0770	7700
